

CNC Machined Titanium Parts Annealing Normalizing Heat Treatment OEM ODM

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Processing Method: CNC Machining
- Inspection: 100% Inspection
- Application: Industrial, Medical, Aerospace, Etc.
- Payment Term: T/T, Paypal, Western Union
- Surface Treatment: Polishing
- Size: Customized
- Tolerance: $\pm 0.01\text{mm}$
- Material: Titanium
- Highlight: **CNC Machined Titanium Parts, Annealing Machined Titanium Parts**

Product Description

Product Description:

CNC machined titanium components are precision titanium parts machining solutions for industrial, medical, aerospace and other applications. Our CNC titanium parts are made from premium grade material to ensure quality and performance. Our experienced engineers and technicians are dedicated to providing customers with superior-quality machined titanium components and services. With advanced CNC machining technology, we can provide high-precision, complex and custom-made titanium parts and components to meet customers' specific requirements.

We offer OEM/ODM services with no minimum order quantity, and 100% inspection to ensure the quality of our products. Our titanium CNC components are available in various materials, sizes, shapes and finishes. We also provide a variety of payment terms, including T/T, Paypal, and Western Union. We guarantee fast turnaround and on-time delivery of our products.

We have extensive experience in machining titanium components and have developed a complete process for CNC machining titanium parts. Our technicians are highly skilled and have a great understanding of the titanium machining process. Through close collaboration with our customers, we can ensure that our machined titanium components meet their exact requirements and specifications.

Features:

Product Name: CNC Titanium Parts

Material: Titanium

MOQ: 1 Piece

Payment Term: T/T, Paypal, Western Union

Application: Industrial, Medical, Aerospace, Etc.

Packaging: Carton/Wooden Case

Technical Parameters:

Attributes	Details
Product Name	CNC Titanium Parts
Inspection	100% Inspection
Payment Term	T/T, Paypal, Western Union
MOQ	1 Piece
Processing Method	CNC Machining
Drawing Format	PDF/DWG/IGS/STP/X_T
Application	Industrial, Medical, Aerospace, Etc.
Service	OEM/ODM
Packaging	Carton/Wooden Case
Tolerance	±0.01mm
Surface Treatment	Polishing
Keywords	Titanium CNC Parts, CNC Machined Titanium Parts, Titanium CNC Parts

Applications:

CNC Titanium Parts

Application and Scenarios

Ywy's CNC Titanium Parts can be used for a variety of applications in many industries. These CNC machined titanium components are perfect for aerospace, automotive, medical, and industrial applications. The CNC 505 model is made from high-grade titanium material and is precision machined with ±0.01mm tolerance. This makes it ideal for high-precision applications, such as those requiring tight tolerances or intricate details. It is also suitable for low-volume production runs, since the MOQ is only 1 Piece. The drawing format can be customized according to customer's needs, with PDF/DWG/IGS/STP/X_T available.

Ywy's CNC Titanium Parts are perfect for high-end applications, such as aerospace, medical, automotive and industrial applications. They offer superior strength, lightweight and corrosion resistance, making them ideal for products requiring high precision and tight tolerance. With OEM/ODM service available, Ywy's CNC Titanium Parts provide a wide range of custom solutions to meet customer's needs.

Ywy's CNC machined titanium components are perfect for high-end applications. With their superior strength, lightweight and corrosion resistance, they are perfect for products requiring high precision and tight tolerance. With OEM/ODM service available, Ywy's CNC Titanium Parts provide a wide range of custom solutions to meet customer's needs. From aerospace, medical, automotive and industrial applications, Ywy's CNC Titanium Parts offer a perfect solution for all your titanium machining needs.

Customization:

Custom-made CNC Titanium Parts from YWY

YWY offers custom-made CNC titanium parts with Model Number CNC505. Our custom-made CNC titanium parts are made with precision and accuracy. Our CNC titanium machining components are durable and strong. With our advanced CNC machined titanium components, you can be sure that your parts will be of the highest quality.

Place of Origin: Guangdong, Huizhou

Service: OEM/ODM

Size: Customized

Inspection: 100% Inspection

Processing Method: CNC Machining

Heat Treatment: Annealing/Normalizing

Our CNC titanium parts are made with the highest quality materials and are designed to meet your needs. We offer custom-made CNC titanium components with precise CNC machining and heat treatment. Our CNC machined titanium components are perfect for any application.

If you are looking for custom-made CNC titanium parts, contact YWY today. We specialize in CNC titanium machining components and CNC machined titanium components.

Support and Services:

CNC Titanium Parts Technical Support and Service

We provide comprehensive technical support and service for CNC Titanium Parts, including but not limited to:

Technical consultation and assistance with product selection

Troubleshooting and problem solving

Installation and maintenance

Spare parts and accessories

Remote and on-site assistance

Software upgrades and updates

Training and user education

For more information, please contact us at your convenience.
