

Single Multi Cavity Custom Plastic Injection Moulding Services

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Size: Max. Mold Size: 1500 X 1200mm
- Service Type: Injection Molding Services
- Cavity: Single Or Multi-Cavity
- Surface Finish: Polishing, Texturing, Painting, Etc.
- Process: Injection Molding, Overmolding, Insert Molding, Etc.
- Equipment: CNC, EDM, Wire-Cutting, Etc.
- Mold Base: LKM, HASCO, DME, Etc.
- Software: UG, Pro/E, SolidWorks, Etc.
- Highlight: **Single Cavity Custom Plastic Injection Moulding**
, Multi Cavity Custom Plastic Injection Moulding

Product Description

Product Description:

Injection Molding Services is a type of injection molding process that offers a wide range of services, including overmolding, insert molding, and other molding processes. Our lead time is 3-4 weeks, and we provide various mold base options, such as LKM, HASCO, DME, etc. We provide both single and multi-cavity injection molding services, and our experienced engineers can work with customers to design and fabricate the most suitable mold for their specific needs. Our services are based on the principles of precision, quality, and customer satisfaction, and we strive to ensure that our customers receive the highest quality products and services.

Features:

Plastic Injection Molding Services

Max. Mold Size: 1500 X 1200mm

Lead Time: 3-4 Weeks

Max. Mold Weight: 10,000kg

Tolerance: $\pm 0.05\text{mm}$

Surface Finish: Polishing, Texturing, Painting, Etc.

Injection Service Molding

Molding Injection Service

Technical Parameters:

Parameter	Value
Software	UG, Pro/E, SolidWorks, Etc.
Surface Finish	Polishing, Texturing, Painting, Etc.
Tolerance	$\pm 0.05\text{mm}$
Mold Life	500,000-1,000,000 Shots
Material	ABS, PC, PP, PA, POM, Etc.
Cavity	Single Or Multi-Cavity
Mold Base	LKM, HASCO, DME, Etc.
Lead Time	3-4 Weeks
Weight	Max. Mold Weight: 10,000kg
Service Type	Injection Molding Services

Applications:

Ywy offers a wide range of injection molding services, from the **Plastic Molding Injection** and **Plastic Injection Molding** to **Injection Plastic Molding**, to meet the needs of a variety of industries. Our injection molding services are provided with the highest quality and accuracy, with features such as a **Brand Name** of ywy, **Model Number** ywy333, **Place of Origin** in Guangdong, Huizhou, **Size** with Max. Mold Size up to 1500 X 1200mm, **Equipment** including CNC, EDM, Wire-Cutting, etc., **Weight** up to 10,000kg, with **Cavity** options of Single or Multi-Cavity, and **Tolerance** of $\pm 0.05\text{mm}$.

Ywy injection molding services are perfect for a variety of industries, and can be tailored to meet any customer's needs. With a commitment to quality and accuracy, Ywy provides the best injection molding services in the industry.

Customization:

Ywy offers custom Injection Molding Services, such as Injection Plastic Molding, Molding Plastic Injection, Process Injection Molding and Custom Injection Molding. Our brand name is ywy, and the model number is ywy333. The place of origin is Guangdong, Huizhou. We use software like UG, Pro/E, SolidWorks, etc. The surface finish can be polishing, texturing, painting, etc. The equipment we use are CNC, EDM, Wire-cutting, etc., and the tolerance can reach $\pm 0.05\text{mm}$.

Support and Services:

Injection Molding Services provides technical support and services to customers through a variety of channels. Our team of experts is available to assist with product design, troubleshooting, and more. We provide assistance in areas such as material selection, manufacturing process optimization, and quality control. Our services include:

Telephone and online support

On-site visits from a qualified technician

Product design and development

Troubleshooting and repair
Material selection and optimization
Manufacturing process optimization
Quality control
