

Processing Method Automotive CNC Turning Milling Parts with Express Shipping

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc202
- Minimum Order Quantity: 1
- Price: 0.68-6.68
- Packaging Details: Bubble paper box packaging
- Delivery Time: 10-15
- Supply Ability: long-term

Product Specification

- Material: Stainless Steel, Aluminum, Brass, Etc.
- Product Size: Customized
- Shipping: Express, Air, Sea
- MOQ: 1 Piece
- Package: Carton, Wooden Case, Etc.
- Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.
- Lead Time: 7-15 Days
- Advantage: High Precision, Fast Delivery, Etc.
- Highlight: **Processing CNC Turning Milling Parts, Automotive CNC Turning Milling Parts**

Product Description

Product Description:

Product Overview - CNC Turning Milling Parts

CNC Turning Milling Parts are precision-made components that are used in various industries such as automotive, aerospace, medical, and electronics. They are essential in the production of high-quality and complex products, making them a crucial part of the manufacturing process.

Advantages

High Precision: Our CNC Turning Milling Parts are manufactured with the latest technology and equipment, ensuring high precision and accuracy in every component.

Fast Delivery: We understand the importance of timely delivery in the manufacturing industry, which is why we guarantee fast and efficient delivery of our CNC Turning Milling Parts.

Customization: We offer OEM and ODM services to meet the specific requirements of our clients. Our team of experts can work closely with you to create custom-made CNC Turning Milling Parts according to your needs.

Surface Treatment

Our CNC Turning Milling Parts come with various surface treatment options to provide the desired finish and protection:

Polishing: This process involves smoothing the surface of the parts to give them a shiny and reflective finish.

Anodizing: Anodizing adds a layer of oxide coating to the surface of the parts, providing enhanced corrosion and wear resistance.

Zinc Plating: Zinc plating is a cost-effective way to protect the parts from rust and corrosion.

MOQ and Tolerance

We have a minimum order quantity of 1 piece for our CNC Turning Milling Parts, making it easier for our clients to order even small quantities. We also guarantee a tolerance of $\pm 0.01\text{mm}$ to ensure the highest level of accuracy and consistency in our products.

Conclusion

With our advanced CNC Milling Manufacturing Parts, CNC Milling Manufactured Parts, and CNC Milling Machine Parts, we strive to provide high-quality and customized solutions to our clients. Our focus on precision, fast delivery, and flexibility makes us a reliable partner for all your CNC Turning Milling Parts needs. Contact us today to learn more about our services and request a quote!

Features:

Product Name: CNC Turning Milling Parts

Advantage:

High Precision

Fast Delivery

Customizable (OEM/ODM)

Material:

Stainless Steel

Aluminum

Brass

And More

Product Type:

CNC Milling Fabricated Parts

CNC Milling Manufacturing Parts

CNC Turning Fabricated Parts

CNC Turning Manufacturing Parts

Customization: Accept OEM/ODM orders

Minimum Order Quantity (MOQ): 1 Piece

Lead Time: 7-15 Days

Technical Parameters:

Product Name	CNC Turning Milling Parts
Advantage	High Precision, Fast Delivery, Etc.
MOQ	1 Piece
Package	Carton, Wooden Case, Etc.
Product Size	Customized
Surface Treatment	Polishing, Anodizing, Zinc Plating, Etc.
Processing Method	CNC Turning Milling
Tolerance	$\pm 0.01\text{mm}$
Drawing Format	PDF, IGS, STP, DWG, Etc.

Material	Stainless Steel, Aluminum, Brass, Etc.
Shipping	Express, Air, Sea

Applications:

Product Introduction - CNC Turning Milling Parts

Brand Name: ywy
Model Number: cnc202
Place of Origin: guangdonghuizhou
Minimum Order Quantity: 1
Price Range: \$0.68 - \$6.68
Packaging Details: Bubble paper box packaging
Delivery Time: 10-15 days
Supply Ability: long-term
Lead Time: 7-15 days
Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.
Application: Automotive, Aerospace, Etc.
Product Size: Customized
Drawing Format: PDF, IGS, STP, DWG, Etc.
Product Description

CNC Turning Milling Parts, also known as CNC Milling Machining Parts, are highly advanced and precise parts that are widely used in various industries such as automotive and aerospace. These parts are manufactured using cutting-edge CNC milling machines, which allow for high precision and accuracy in the production process.

Application and Usage

CNC Turning Milling Parts have a wide range of applications and are used in various industries such as automotive, aerospace, electronics, and more. These parts are used in the manufacturing of components for machines, equipment, and tools. They are also used in the production of prototypes and small batches of products.

Product Features

High precision and accuracy
Customized size and design
Durable and long-lasting
Wide range of surface treatments available
Can be used in various industries
Efficient and cost-effective production
Compatible with different drawing formats

Production Process

The production process of CNC Turning Milling Parts involves several steps, including designing, programming, machining, surface treatment, and quality control. The process begins with the design of the part using specialized CAD software. The design is then converted into a program that can be read by the CNC milling machine. The machine then cuts and shapes the raw material according to the programmed design. After the machining process, the parts are treated with different surface treatments, such as polishing, anodizing, or zinc plating, to enhance their appearance and functionality. Finally, the parts go through a rigorous quality control process to ensure they meet the required specifications and standards.

Advantages of CNC Turning Milling Parts

High precision and accuracy
Efficient and cost-effective production
Customized design and size
Wide range of surface treatments available
Durable and long-lasting
Compatible with different drawing formats

Conclusion

CNC Turning Milling Parts, manufactured by ywy, are high-quality and precise parts that are widely used in various industries. These parts are customizable, durable, and efficient, making them a preferred choice for many businesses. With advanced technology and a skilled team, ywy is committed to providing high-quality CNC milling manufacturing parts to meet the diverse needs of its customers. Order your CNC Turning Milling Parts today and experience the superior quality and precision of ywy's products!

Customization:

Customized CNC Turning Milling Parts by YWY

Brand Name: YWY
Model Number: CNC202
Place of Origin: Guangdong Huizhou
Minimum Order Quantity: 1
Price: \$0.68-\$6.68
Packaging Details: Bubble paper box packaging
Delivery Time: 10-15 days
Supply Ability: Long-term
Shipping: Express, Air, Sea
OEM/ODM: Accept
Application: Automotive, Aerospace, etc.
Material: Stainless Steel, Aluminum, Brass, etc.
Lead Time: 7-15 days

At YWY, we offer customized CNC turning milling parts to meet your specific needs. Our CNC milling process parts are fabricated with precision and accuracy, ensuring high quality and reliable performance. Our CNC milling machining parts are suitable for various applications, such as automotive and aerospace industries.

Packing and Shipping:

Packaging and Shipping for CNC Turning Milling Parts

Our CNC turning milling parts are carefully packaged to ensure safe transportation and delivery to our customers. The packaging process includes the following steps:

Step 1: Each part is inspected and cleaned to remove any dust or debris.

Step 2: The parts are then individually wrapped in protective material, such as bubble wrap or foam, to prevent any scratches or damage during transit.

Step 3: The wrapped parts are placed in a sturdy cardboard box or wooden crate, depending on the size and weight of the parts.

Step 4: The box or crate is sealed and labeled with the customer's information, as well as a description of the parts inside.

Step 5: For international shipments, we ensure that all necessary customs forms and documents are included.

Once the packaging process is complete, the parts are ready for shipping. We offer various shipping options to meet our customers' needs, including:

Standard shipping: This is our most cost-effective option and typically takes 5-7 business days for domestic delivery.

Expedited shipping: For urgent orders, we offer expedited shipping with delivery within 1-3 business days.

International shipping: We ship to customers all over the world and offer various shipping methods, including air and sea freight.

Our team carefully tracks each shipment to ensure timely delivery and provides our customers with tracking information so they can monitor their package's progress. We also offer insurance options for added protection during transit.

At CNC Turning Milling Parts, we are committed to providing our customers with high-quality parts and reliable shipping services. Contact us today to learn more about our packaging and shipping options.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is ywy.

Q: What is the model number of this product?

A: The model number of this product is cnc202.

Q: Where is this product made?

A: This product is made in guangdonghuizhou.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: What is the price range for this product?

A: The price range for this product is 0.68-6.68.

Q: How is this product packaged?

A: This product is packaged in bubble paper box packaging.

Q: How long is the delivery time for this product?

A: The delivery time for this product is 10-15 days.

Q: What is the supply ability for this product?

A: The supply ability for this product is long-term.
