

## Highly Durable 3D Printed Parts For High-Performance Machinery

Our Product Introduction

For more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy222

### Product Specification

- Printing Layer: 0.2mm
- Tolerance:  $\pm 0.2\text{mm}$
- Design Software: SolidWorks
- Lead Time: 7-10 Days
- Printing Technology: FDM
- MOQ: 1 Piece
- Size: Customized
- Surface Finish: Smooth
- Highlight: **Machinery 3D Printed Parts,  
High Durable 3D Printed Parts,  
High Performance 3D Printed Parts**

## Product Description

### Product Description:

The 3D Printing Process we use allows us to produce complex geometries and intricate details with an exceptional level of accuracy. We can produce parts in a range of file formats including STL, IGS, and STP. Our team of skilled technicians can work with you to create customized 3D Printed Goods to meet your specific requirements.

Our 3D Printed Parts are made using biodegradable and eco-friendly PLA material. This material is known for its strength, durability, and ease of printing. It is also environmentally friendly, making it ideal for a range of applications.

We offer a range of sizes for our 3D Printed Parts, and you can customize your order to suit your specific needs. Whether you need small or large components, we can create 3D Printed Goods to meet your requirements.

All our 3D Printed Parts come in a clean and crisp white color, giving them a professional and modern look. This makes them ideal for use in a range of industries, including engineering, aerospace, medical, and more.

Our 3D Printed Parts are perfect for prototyping, creating models, and producing end-use components. With our fast and efficient printing process, we can produce high-quality 3D Printed Goods in a short amount of time, without compromising on quality.

Choose our 3D Printed Parts for a reliable and cost-effective solution to your component needs. Our team of experts is dedicated to providing you with the best quality products and services, ensuring that you receive the best possible value for your money.

### Features:

**Product Name:** 3D Printed Parts

**Printing Technology:** FDM

**Color:** White

**Size:** Customized

**Surface Finish:** Smooth

**Tolerance:**  $\pm 0.2\text{mm}$

Our 3D Printed Parts are high-quality components produced using FDM 3D printing technology. These 3D printed components are available in customized sizes, with a smooth surface finish and a tolerance of  $\pm 0.2\text{mm}$ . They are available in white color and are perfect for a range of 3D printing products.

### Technical Parameters:

Printing Layer	0.2mm
MOQ	1 Piece
Surface Finish	Smooth
Color	White
Post-Processing	Sandblasting
Design Software	SolidWorks
Lead Time	7-10 Days
Tolerance	$\pm 0.2\text{mm}$
Printing Technology	FDM
Application	Industrial

### Applications:

Our 3D Printed Parts, also known as three-dimensional parts, are customizable to fit your specific size requirements. We accept file formats such as STL, IGS, and STP to ensure compatibility with your designs.

Our post-processing technique of sandblasting ensures a smooth and polished finish on each part, giving it a professional look. The color of each part is a clean and classic white, adding to its versatility.

These 3D Printed Parts have a wide range of application occasions and scenarios. They can be used in manufacturing, prototyping, product design, and even in artistic and creative endeavors. Whether you're looking to create a custom phone case, a personalized figurine, or a complex machinery part, our ywy222 Three-Dimensional Parts can meet your needs.

Our 3D Printed Parts are also durable and long-lasting, making them ideal for industrial and mechanical applications. They can withstand high temperatures and pressures, ensuring their reliability even in the toughest environments.

Don't settle for subpar parts for your projects. Choose ywy's ywy222 3D Printed Parts for the best quality, customization, and durability. Order now and experience the difference in your designs.

### Customization:

**Product Customization Services for 3D Printed Parts**

Brand Name: ywy

Model Number: ywy222

Place of Origin: guangdonghuizhou

Printing Layer: 0.2mm  
Printing Technology: FDM  
Design Software: SolidWorks  
Post-Processing: Sandblasting  
Material: PLA

Our Three-Dimensional Prints are customizable to meet your specific requirements. We offer product customization services for our Three-Dimensional Products, specifically our 3D Printed Parts. With our state-of-the-art FDM printing technology and design software, we can create high-quality 3D Printed Parts with a printing layer of 0.2mm. Our post-processing techniques, such as sandblasting, ensure a smooth surface finish. Contact us to discuss your custom requirements and we will provide a solution tailored to your needs.

## Support and Services:

Our 3D Printed Parts product comes with comprehensive technical support and services to ensure the optimal performance and longevity of your parts. Our team of experts is available to assist with any questions or issues you may encounter during the installation, operation, or maintenance of your 3D printed parts.

We offer a range of support services, including:

**Technical consultation and guidance**

**Installation and setup assistance**

**Troubleshooting and issue resolution**

**Maintenance and repair services**

**Training and education**

In addition to our support services, we also offer customization and engineering services to ensure that your 3D printed parts meet your exact specifications and requirements. Our team can work with you to design, prototype, and manufacture custom parts that are tailored to your specific needs.

## Packing and Shipping:

Product Packaging:

The 3D printed parts will be carefully packaged in a sturdy cardboard box to ensure maximum protection during transportation. Each part will be individually wrapped in bubble wrap and placed securely in the box to prevent any damage or scratches.

Shipping:

We offer free domestic shipping within the United States. All orders will be shipped through our trusted courier partners and will usually be delivered within 3-5 business days. For international orders, shipping fees will apply and delivery times may vary depending on the destination country.

## FAQ:

A: The brand name of this 3D Printed Parts is ywy.

\*\*\* \*\*

Q: What is the model number of this 3D Printed Parts?

A: The model number of this 3D Printed Parts is ywy222.

\*\*\* \*\*

Q: Where is this 3D Printed Parts manufactured?

A: This 3D Printed Parts is manufactured in guangdonghuizhou.

\*\*\* \*\*

Q: Is this 3D Printed Parts made of durable materials?

A: Yes, this 3D Printed Parts is made of high quality and durable materials.

\*\*\* \*\*

Q: Can this 3D Printed Parts be customized to fit specific needs?

A: Yes, this 3D Printed Parts can be customized to fit specific needs.
